1. Hero Section

1. Logo & Tagline

- *Final logo file (vector/SVG or high-res PNG, transparent bg) - [done]*
- Approved tagline/one-liner (or 2-3 options if not finalized)

Option 1 (Legacy & Global Sourcing Authority):

- *Headline:* "Bridging Global Chemistry with Precision Sourcing & Regulatory Integrity."
- *Subheadline:* "A trusted partner in the sourcing, distribution, and global indenting of high-purity Active Pharmaceutical Ingredients, Intermediates, and Specialty Actives."

Option 2 (Scale, Speed & Supply Chain Clout):

- *Headline:* "End-to-End Pharmaceutical Sourcing, Regulatory Excellence & Strategic Distribution."
- *Subheadline:* "Empowering global formulation manufacturers with direct-from-source APIs, regulatory filing documentation, and resilient cross-border supply chains."

Option 3 (Modern B2B Corporate & Operational Clout)

- **Headline:** "Precision Indenting and Strategic Sourcing for the Global Pharmaceutical Industry."
- **Subheadline:** "Eliminating international supply chain friction by connecting leading formulators with audited manufacturers, complete DMF support, and guaranteed pharmacopoeial compliance."

Option 4 (Strategic Supply Chain & Pharmacopoeial Assurance)

- **Headline:** "Strategic API Sourcing & Global Indenting for Modern Formulation Leaders."
- **Subheadline:** "A trusted partner in the sourcing, distribution, and global indenting of high-purity Active Pharmaceutical Ingredients, Intermediates, and Specialty Actives."

2. Company Legacy / About

- Founding & Early Imports
- 1984

Founded by Kiran Premchand Shah in Mumbai, pioneering API imports from China alongside nationwide domestic sales.

- Pioneering Pharmaceutical Indenting
- 1994

Transitioned into direct international indenting, bridging global synthesizers with India's emerging formulation leaders.

- Executive Leadership Expansion
- 1997

Krishna Kumar Iyer joined as General Manager, joining hands with Kiran Shah to accelerate commercial growth and scale operations.

- DCGI Approvals & Global Giants
- 2002

Secured key DCGI registrations, establishing Ruskin as a primary indenting partner in India for international majors like NCPC and CSPC.

- Direct Sourcing Corridors
- 2006

Began on-ground procurement expeditions to China, securing long-term manufacturer relationships, audited supply, and price advantages.

- Operational & Domestic Market Scale
- 2014

Yash Jhaveri joined the leadership team as Head of Marketing & Operations, modernizing local sales and operational workflows alongside Krishna Kumar Iyer.

- Next-Gen Business Development
- 2024

Atman Ajmera joined as Manager, driving strategic outreach, new client acquisitions, and modern institutional partnerships.

- Modern Global Indenting Powerhouse
- Today

A multigenerational pharma partner combining decades of sourcing mastery with forward-looking market development and complete regulatory trust.

- Any "founder story" hook worth surfacing (e.g. how the company started, key pivot moments)

Our Inspiration

Guided by Timeless Values

At **J. B. Khokhani & Co.**, business is not only about transactions. it is about how we conduct ourselves in every one of them.

Our work is guided by the teachings of Pujya Gurudevshri Rakeshji, an enlightened spiritual master, visionary, and the founder of Shrimad Rajchandra Mission Dharampur (www.srmd.org), a global spiritual organization with over 206 centers across six continents.

Pujya Gurudevshri's teachings center on inner transformation, integrity, compassion, and selfless service. He teaches that true progress, in life and in work, comes not from what we achieve, but from how we achieve it.

These principles are not separate from how we do business. They are the foundation of it.

"The way you conduct yourself in every interaction is a reflection of your inner values."

At JBK, this translates into the way we treat our clients, our suppliers, and our partners, with honesty, accountability, and a genuine commitment to their success.

Our Story

Founded in 1984 by Kiran Premchand Shah in Mumbai, Ruskin Chemipharm began with a bold vision: pioneering API imports from China while building a robust nationwide domestic distribution network. What started as an ambitious import operation quickly evolved into a leading international pharmaceutical indenting powerhouse. From Supplier to End-User, we are experts in end-to-end distribution of raw materials.

For over four decades, our growth has been driven by strategic leadership, regulatory rigour, and on-the-ground execution:

In 1997, Krishna Kumar Iyer joined as General Manager alongside Kiran Shah, accelerating our commercial scale.

In 2014, Yash Jhaveri joined as Head of Marketing & Operations to modernize local sales and operational workflows alongside Krishna Kumar Iyer.

In 2024, Atman Ajmera joined to lead business development, driving strategic outreach and new institutional partnerships.

Today

Ruskin Chemipharm stands as a multigenerational partner operating at the intersection of regulatory trust, global sourcing mastery, and modern market development. We remain committed to our founding values:

- **Regulatory Excellence:** Ensuring end-to-end compliance and securing direct approvals with top-tier international manufacturers.
- **Direct Sourcing Integrity:** Leveraging long-term, audited supplier relationships to deliver pricing advantages and uninterrupted supply chains.
- **Enduring Relationships:** Fostering transparent, decades-long partnerships with synthesizers and formulation leaders worldwide.

Leadership

A Commitment to Community & Care

At Ruskin Chemipharm, our responsibility extends beyond supply chains and market leadership. We are privileged to support Shrimad Rajchandra Love and Care (SRLC), a global humanitarian movement inspired by Shrimad Rajchandraji and guided by Pujya Gurudevshri Rakeshji.

Operating across ten comprehensive care categories—ranging from healthcare and education to environmental care and animal welfare—SRLC has impacted over 21 million lives worldwide. The organization's operational scale, transparency, and relentless commitment to service reflect the core values we hold at Ruskin.

- **21M+** Lives Touched Globally
- **10** Holistic Care Categories
- **UN ECOSOC** Special Consultative Status
- **13×** Highest Fundraising NGO at Tata Mumbai Marathon

Our association with SRLC is driven by a shared belief in sustainable impact, institutional integrity, and meaningful service to society.

3. Premium/Flagship Products

- Which 2-4 products should be spotlighted (e.g. vegan Vitamin D3, if any)
- **Benzathine Penicillin IP**
- **Benzylpenicillin Sodium IP**
- **Procaine Penicillin IP**
- **Iohexol**
- **Rifampicin IP**
- **Desflurane**
- **Isoflurane***
- **Sevoflurane**
- **Piracetam IP**
- **Mefenamic Acid IP***
- **Pyridoxine Hydrochloride (Vitamin B6) IP/EP**
- **Thiamine Hydrochloride (Vitamin B1) IP/EP**
- **Thiamine Mononitrate (Thiamine Nitrate) IP/EP**

-

4. Product Categories (Spectrum)

- *Full list of category names as he wants them labeled (e.g. Pharmaceutical APIs / Nutraceuticals / Veterinary / Intermediates - confirm actual names) [done]*
- One-line description per category

- **Pharma**
- **Animal Care**
- **Excipients**
- **Food & Nutrition**
- **Nootropics**

Anti-Infectives & Antibiotics

- **Amphotericin B I.P**
- **Arbekacin Sulphate J.P**
- **Benzathine Penicillin IP**
- **Benzylpenicillin Sodium IP**
- **Procaine Penicillin IP**
- **Rifampicin IP**
- **Streptomycin Sterile IP**
- **Teicoplanin IP**

- **Azithromycin I.P***
- **Lamivudine IP***
- **Tenofovir Disoproxil Fumarate IP***

Anesthetics & Neuromuscular Blockers

- **Rocuronium Bromide**
- **Desflurane / Desflurane Inhaler / Desflurane USP***
- **Isoflurane***
- **Sevoflurane / Sevoflurane EP, U.S.P.***

Contrast Media

- **Iohexol**
- **Iobitridol***
- **Iodixanol***
- **Iomeprol***
- **Iopamidol***
- **Iopromide***
- **Ioversol***

Immunosuppressants & Oncology

- **Mitomycin**
- **Tacrolimus IP**
- **Cyclosporine IP***
- **Oxaliplatin IP***

Nephrology & Amino Acid Therapy (Keto Analogues)

- **D,L-α-Hydroxymethionine Calcium***
- **D,L-α-Ketoisoleucine Calcium***
- **α-Ketoleucine Calcium***
- **α-Ketophenylalanine Calcium***
- **α-Ketovaline Calcium***

Gynecology, Obstetrics & Hormone Therapy

- **Ethinylestradiol***
- **Levonorgestrel***
- **Mifepristone***

Central Nervous System (CNS) & Nootropics

- **Piracetam IP**

Analgesics & Anti-Inflammatory (NSAIDs)

- **Mefenamic Acid IP***

Vitamins, Nutrients & Antioxidants

- **Pyridoxine Hydrochloride (Vitamin B6) IP/EP**
- **Thiamine Hydrochloride (Vitamin B1) IP/EP**
- **Thiamine Mononitrate (Thiamine Nitrate) IP/EP**
- **Coenzyme Q10 USP***

Anthelmintics & Immunomodulators

- **Levamisole**

(Note: Products marked with ***** are indicated as **Under Registration** in the company records).

Other local product list is mentioned in the brouchure with veer.

5. End-to-End Supply Chain

- The actual chain stages he wants shown (e.g. Sourcing → Manufacturing → QC → Packaging → Export/Distribution)
- One line per stage explaining what happens there
- Any certifications/checkpoints tied to specific stages

6. Global Presence

- Number of countries currently served
- Named regions/countries to highlight (if some matter more than others - e.g. flagship export markets)
- Any specific claim Ruskin wants attached ("largest exporter of X to Y region" etc.)

7. Upcoming Events

- List of events/exhibitions planned (name, date, location)
- Booth number / participation details if relevant
- Whether this needs to stay "live" (i.e. will he update this himself later, or should we build a static list for now)

---

2. Statistics Section

- Years in business (exact number, and founding year to calculate from)
- Number of partnerships (and should this say "partners," "distributors," or something specific)
- Number of products (total SKU/API count)
- Number of customers (or is this "countries served" instead - confirm which metric Ruskin prefers)
- Any additional stat Ruskin wants featured (e.g. manufacturing capacity, tonnage, R&D team size)

---

3. Product Catalog Grid

- Full product list with, for each: product name, category, CAS number (if applicable), short description, image
- A curated subset for homepage (with "view all" linking to full product page)
- Spec sheet/COA/MSDS download links per product, if these should be attached

---

4. Why Us / Differentiators

- Sourcing network - what's actually differentiated here (own manufacturing? vetted partner network? backward integration?)
- Quality/compliance process - certifications held (WHO-GMP, ISO, USFDA, etc.), any audit stats
- Flexibility - MOQ flexibility, custom formulation, private labeling?
- Turnaround - any concrete lead-time claim he's comfortable stating
- Regulatory support - what exactly is offered (DMF/CEP filing support, documentation packages, etc.)

(rank these or add/remove - this list assumes all 5 stay, but confirm.)

---

5. Global Reach

- Full list of countries/regions served (for map or list display)
- Confirm display preference: interactive map vs. static list vs. both
- Any region he wants called out specially (HQ region, largest export market, newly entered market)

---

6. CTA Section

- **What's the primary action he wants - Request a Quote / Download Catalog / Contact Sales / Book a Call?**
- *If catalog download: does the PDF exist, or does it need to be created from this same content? [done]*
- **Contact routing - should the CTA form go to a specific email/person, or general enquiry inbox?**
